Fresher in Web Development and interested in MERN stack, I've done multiple projects. I learnt everything from scratch on my own and built some advance level projects which shows my passion to learn technologies fast and implement them to build real life scalable applications that deliver value. And yes, I can speak good English and convince people by influencing them.

Education

Indira Gandhi National Open University, Patna

Bachelor in Computer Applications, 2020-2023

Grade : N/A (Awaiting)

R. N. Public School, Chapra, Bihar
